

## HEMENWAY REPORT SOON COMPLETED

Will Suggest Plans for Economy in Expenditures.

Former Senator Hemenway of Indiana will in a short time make a report to the Senate Committee on Public Expenditures, by which he is employed as an expert, on the plans he has evolved for the enforcement of economy in Government expenditures.

This report will be made soon after the special session adjourns, and possibly before adjournment. A subcommittee of the committee is expected to meet and consider the report before the members scatter for the summer.

A permanent commission to promote economy in Government expenditures is recommended by Mr. Hemenway. He has collected a large amount of data on the subject, showing where there is waste and extravagance, where duplication exists, and where reductions can be made in expense without impairment of service.

Mr. Hemenway has not yet made public his plan for checking extravagance, but there is reason to believe he will advise a small commission, with a modest force of clerks, to scrutinize expenditures carefully. It is believed such a body would save the Government millions of dollars annually.

It is pointed out by Mr. Hemenway that for the last ten years the expenditures have been growing at the rate of about \$50,000,000 annually. Thus far, the movement for economy has been confined largely to the Senate, but the House is expected to join as soon as its committees are named.

## MRS. GREENSTREET'S BURIAL TOMORROW

Funeral Services for Warden McKee's Daughter Will Be at Metropolitan Church.

Funeral services for Mrs. Mary McKee Greenstreet, who died yesterday at her home, 1420 Twenty-first street northwest, after an illness of two weeks, will be held tomorrow at 2 o'clock from the Metropolitan Memorial Church.

The Rev. John Reid Shannon will officiate. The body will be placed temporarily in a private vault.

Mrs. Greenstreet was a daughter of Capt. Thomas H. McKee, warden of the District Jail. For several years she was private secretary to the chief clerk in the Paymaster's Office of the War Department. She was born in Cass county, Indiana, in 1870, and was brought to Washington by her father in 1881, when he was appointed to a position in the House of Representatives. For several years she was organist of the Metropolitan Memorial Church Sunday school.

## EAGLES SWARMING CHESAPEAKE BEACH

Flight From Washington Aerie Continues All Day—Many Amusements Provided.

Scores of Eagles from Washington Aerie, No. 135, winged their flight to Chesapeake Beach this morning where the day will be spent in various sports, in dancing, and in bathing. The flight extended over all the day, every train carrying some of the faithful. During the afternoon, the Eagles and the Avalon Heights ball teams met on the baseball diamond to battle array to contest for a gold medal. Much was furnished by the Eagles' band.

The homeward flight will continue up to 11 o'clock when the last train leaves the beach. Many invitations had been extended to members of Congress as well as other Government officials to participate in the outing.

## TWAIN TO PILOT TAFT DOWN RIVER

Committee on Arrangements Think Noted Humorist Will Not Refuse a Second Time.

MEMPHIS, Tenn., July 27.—When President Taft starts his trip down the Mississippi on the steamboat of the same name it is more than likely that the man who piloted Tom Sawyer and Huck Finn down the big creek will act in the same capacity for the President.

The committee in charge of the arrangements say that they will formally invite Mark Twain to act as honorary helmsman within a few days, and it is the opinion of many here that the famous writer will not a second time decline an invitation to pilot a President down the Mississippi river. Members of the committee hint that the reasons which are said to have made Mr. Clemens decline the first invitation do not apply in the present case.

## TOWN HAS BIG FIGHT ON CHANGE OF NAME

Good People of Rockefeller, Ill., Are Divided on the Proposition.

ROCKEFELLER, ILL., July 27.—The fight of the town of Rockefeller, Ill., to change its name to the town of Aerie has assumed all the proportions of a political campaign.

Those against the change celebrated with red fire and parades when it became known that the Postoffice Department had refused to make the change. It is said that those favoring it will continue the fight. John J. Rockefeller will be asked for a donation to the town by the people who want his name retained.

## SEEK TO IDENTIFY BODY OF FLOATER

CHESAPEAKE BEACH, Md., July 27.—Efforts are being made by the Anne Arundel county authorities to get some clue to the identity of the man whose body was discovered on the shore at North Chesapeake Beach. The body was badly decomposed and had evidently been in the water several days before it was washed ashore.

The man was between fifty and sixty years of age and was dressed in dark clothing of a good quality. Coroner Leach is of the opinion that the man fell or jumped from one of the excursion steamers on the bay.

## CUMMINS PREPARING NEW RAILROAD BILL

Seeks to Patch Up Holes Left in the Hepburn Law by Court's Decision—Would Bar Railroads From Coal Mining.

Senator Cummins of Iowa has prepared a bill for introduction in the Senate which will seek to remedy the defects of the commodities clause of the Hepburn law which was poked full of holes by a recent decision of the Supreme Court.

Senator Cummins' bill will be for the purpose of shutting railroads effectively out of the business of coal mining, directly or indirectly, by prohibiting them from hauling coal from mines owned by them.

Under the decision of the Supreme Court, it is possible for a railroad to carry coal which comes from a mine owned by a corporation in which it has shares of stock. It is the purpose of Senator Cummins' bill to shut this off. The Supreme Court decision allows a railroad to mine coal and transport the coal so mined, providing it is sold to another party before the shipment begins. Senator Cummins says there is no way of preventing this, and that it is for the States to say whether railroad companies shall be allowed to mine coal. Over this, the Federal Government has no authority.

It is likely this question will be up again in the next regular session and that it will attract no small degree of attention. Senator Cummins is a member of the Senate Committee on Interstate Commerce.

As governor of Iowa, Senator Cummins was responsible for a great deal of important railroad legislation, including the anti-pass law. Now that the tariff bill is practically out of the way, save for the final voting, Senator

## PRODUCE MEN PLAN GIANT WAREHOUSE

Washington Commission Dealers Hear of Project to Erect Mammoth Building.

Washington commission men are greatly interested in the reported plan of out-of-town capitalists, said to be representatives of E. H. Harriman and Swift & Co., to erect near the intersection of the Pennsylvania railroad and Mt. Olivet road a mammoth warehouse, including 100 separate storage buildings with tracks of the Pennsylvania railroad running into them, for the use of the Capital's merchants and buyers.

The report of this undertaking, which lacks confirmation, grows out of the purchase by out-of-town interests of a tract of land in the locality mentioned by Frederick Merten, a Washington real estate dealer. The sale was conducted through Christian Ubbhoff, another broker.

While neither of the persons here concerned in the transaction will disclose the names of their clients, it is understood that the tentative plan for the warehouse will involve an expenditure of \$500,000.

The idea will be to erect a building or series of buildings capable of providing storage for the great quantities of fruits, vegetables, eggs, butter, dressed chickens and other produce now stored in various buildings scattered throughout the city.

## FORMER PRESIDENT EXPLAINS ACTION

HAMBURG, July 27.—In resigning as President of Colombia, General Reyes says that a majority of the new congress is clearly opposed to the ratification of the triple treaty between the United States, Colombia, and Panama, and it was, therefore, useless, for him to retain office.

He expressed the opinion that Acting President Holguin, who holds the same opinions as himself, will soon be compelled to retire.

## CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy.

Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought

In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

## ANVIL CHORUS BUSY ON CAPITOL HILL

High Tariff Advocates Said to Have Called Taft Free Trader.

The more the facts leak out as to the feeling in high tariff circles in Congress toward President Taft, the more interesting they become. Speaking of anvil choruses, there is one at the Capitol which doing a beautiful line of hammering at the expense of the President. It develops that this was begun on the day that twenty-three Republican members of the House, all opposed to the removal of the duties on raw materials, went to see the President and were told that the duties on raw materials had to come down.

It was at this time that the fate of the tariff commission was sealed. When the supporters of duties on raw materials got back to the Capitol they held a meeting, and in this, behind closed doors, there is good authority for saying that there was a lot of plain, unfurnished and interesting talking about the chief executive.

One eminent high tariff advocate is said to have got up and denounced Taft as a free trader. He recalled the training in political economy Taft had had at Yale. In addition to the feature of the tariff bill which gives the President the power to name tariff commissioners, to advise as to the administration of the maximum feature of the law, and to report information to Congress, this member said there was nothing to prevent the President appointing any number of commissioners and that in consideration of the views of the President it was dangerous.

It was at this time, that the word was sent out that the tariff commission proposition had to be carefully guarded and the provision for reporting to Congress strictly out. The plan was executed and the tariff commission proposition made as harmless as possible. President Taft was much aroused when he heard of it, but seems to have found no remedy.

## WOMAN DISAPPEARS, MURDER IS FEARED

Clothing Found on Bank of Pond Soon After She Left Summer Inn Leads to the Belief That She Was Killed.

BURLINGTON, N. J., July 27.—Scores of men are today dragging Rose Pond, in the pine swamp, about ten miles from here, in the hope that they will find the body of a beautiful woman who mysteriously disappeared from the Metropolitan Inn at Burlington last Thursday night.

Evidence of a struggle, together with many articles of woman's dress, have been found on the banks of the pond, and while the county officials believe they may reveal a suicide, the summer boarders refuse to accept that theory, and declare a murder has been committed.

Some 11, ago a beautiful girl, with a splendid wardrobe, arrived here with a handsomely dressed man. They registered as "Mr. and Mrs. Watkins, of Brooklyn."

Quarrels between them were frequent. Thursday the man came down from their room, after a violent quarrel, paid his bill and departed. A short time later the woman, in great distress, came down and ordered a rig, in which she drove away. She has not been seen since.

Searchers found the vehicle tied to a tree near Rose Pond. The footprints of a man and a woman could be seen. Some sidecombs, hair pins, woman's clothing, and a bottle of whisky were found. The earliest arrivals at the spot say there were signs of a body being dragged toward the lake.

The woman's room at the inn was searched. A number of letters addressed to Miss A. M. Wilson, Manhattan Hotel, New York, were found. In one of them the writer asked "Miss Wilson" not to call again at his place of business. In another he told her not to address any more letters to him at the Brooklyn address. Several names were mentioned in the missives, but the

## Have You Seen Our \$1.00 Eye-glasses

Those who have declared they have never seen the equal under \$5.00. These glasses are equipped with lenses fitted to your eyes. The mountings are of gold. A value that we guarantee for 20 years. We doubt if you could get a longer guarantee on the very highest priced eyeglasses.

Come in and see them and form your own opinion.

## FRENCHMAN URGES PREMIUM ON BABIES

Richel Would Pay Bonus on Births to Stop Race Suicide.

PARIS, July 27.—Professor Richel, of the academy of medicine, today took steps to have his ideas regarding the lifting of the alarmingly low birth rate in France incorporated in a bill for presentation before the assembly when it meets in October.

Dr. Richel's plan is an enlargement of the old idea of paying bonuses for the birth of children.

For the first child there would be no bonus, under his scheme. But for the second, there would be a \$100 bonus and a \$200 bonus for each succeeding child. At present only about 750,000 births occur annually in France, and Richel says the adoption of his scheme quickly would bring the number to a million, and eventually far above this figure.

The cost to the government, Richel says, would be about \$60,000,000 a year, and he proposes to meet this by a death tax of 50 cent on property left to an only child.

## SERGEANT HIGH MAN IN BIG RIFLE SHOOT

FORT SAM HOUSTON, Tex., July 27.—Sergeant J. R. Rafferty, of Company L, Fifteenth Regiment, is the high man in the rifle competition of the regular army at Camp T. J. Wint, Leon Springs.

One point behind him is Sergeant H. W. Whitaker, of Company A, Rafferty's score was 28 for Monday.

## IT SAVES YOU MONEY

The special half price sale of Dr. Howard's specific for the cure of constipation and dyspepsia by your leading druggist means the saving of a few dollars on every family's yearly bill for medicines.

Each 50 cent bottle (Mr. O'Donnell sells it for 35c) contains sixty doses of a medicine that is pleasant to take and which can be depended upon to cure the worst case of constipation, dyspepsia or liver trouble.

This remedy is not an ordinary medicine. It is the favorite formula of a well known physician, and has the endorsement of hundreds of physicians of eminence in their profession, who prescribe it in all cases of constipation, dyspepsia or liver trouble, knowing from experience that it will make a complete and lasting cure.

Dr. Howard's specific for constipation and dyspepsia is sold at half price at O'Donnell's Drug Store, 64 F St. N. W.
